

ALTO

a **NETSYNC** solution

ALTO—a Netsync solution

Digital Signage to enlighten, educate and entertain guests and employees

ALTO is a highly flexible digital signage solution that enables clients to collaborate, interact and inform customers and employees across multiple endpoints. ALTO is a SaaS (Software as a Service) platform that utilizes interactive video and chat technologies to enable clients to better inform, entertain and engage their customers and staff.

ALTO enables clients to deliver more personalized customer experiences through rich media and interactive applications, all centrally managed through ALTO Digital Manager. With ALTO Digital Designer, users can easily create or import slides and even accommodates content from 3rd party providers.

ALTO

Accelerated Collaboration

communicate more easily through conferencing and chat features.

An Enhanced Interactive Experience

entertain and inform your audience, and engage them through multiple devices.

Easier Dissemination of Information

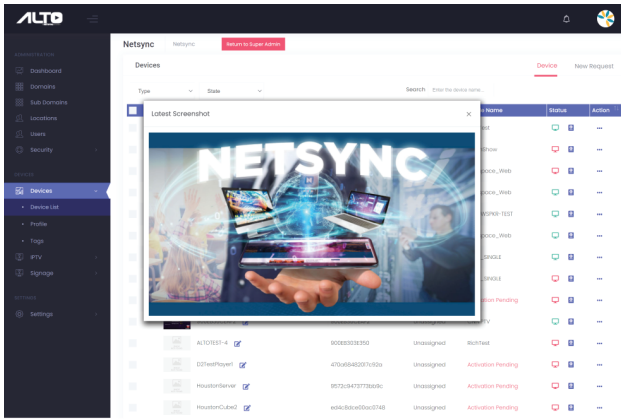

seamlessly, quickly, and easily deliver need-to-know and time-sensitive information to your audience.

Real-time data insights

capture and immediately act on customized information from audiences.

NETSYNC

ALTO Digital Manager

Through ALTO Digital Manager, customers can gain visibility into all interactive displays and content. All configurations can be managed remotely to help ensure adherence to corporate governance and compliance. Policies can be created and managed to orchestrate actions and change themes.

- Cloud application
- Browser based interface
- Remote configuration/manage
- Manage one/many devices

ALTO Digital Designer

After Netsync's cloud experts have designed the right cloud strategy, they ensure customers' existing environment and future needs are considered prior to the development and deployment of a cloud migration plan.

- Deliver rich media
- Interactive applications
- Real-time collaboration
- Video assistance
- Personalized interactions

NETSYNC

Netsync is an end-to-end technology solutions consulting company that helps public and private organizations implement complex IT projects to achieve exceptional outcomes. Our team of engineers bring tangible business value to every project through our progressive Design, Build, Deliver, and Manage services methodology, allowing them to tailor solutions for each client based on time, budget and desired outcome.

As a Cisco Gold, Master Collaboration, Master Networking and Master Security Partner; an HP and Intel Platinum Partner; and holding certifications and specializations from many of the industry's leading technology manufacturers, Netsync has extensive experience performing large-scale implementations and deploying complex IT solutions for K-12 and higher education institutions, civic organizations, municipalities, government agencies and corporate clients across several industries, including energy, healthcare, retail and financial services.
