## Survivability Options

### XM Fax SP High-Availability Option

A High-Availability (HA) XM Fax system consists of two XM Fax SP servers.

First XM Fax server is charged at list price (minus applicable discounts).

Second XM Fax SP server is charged at prices indicated in the High Availability pricing section.

Second XM Fax SP is identically configured (# Channels, gateways, options) as the first server.

XM Fax Classic DR Redundancy Option.

### A Disaster Recovery (DR) XM Fax solution consists of a minimum of two XM Fax systems (SP Edition)

One of the systems must be an XM Fax SP Edition system.

First XM Fax system is charged at list price (minus applicable discounts).

Second XM Fax system is charged at prices indicated in the Disaster Recovery pricing section.

Second XM Fax system, according to customer requirements, has an equivalent configuration than the first system.

### MFP Connector Redundancy Option

A redundant connector configuration consists of two distinct instances of the connector software.

The first connector is charged at list price (minus applicable discounts). The second (redundant) connector is available free of charge.
